Discussed need for increased support for building maintenance. Three main needs: funding to accomplish maintenance, personnel to oversee and/or accomplish maintenance, and a plan of the maintenance to be done. This committee can support by advocating for all three and assisting in compiling a maintenance plan.

The committee members will seek additional input by talking with designated personnel in the community for input: Mr. Hildreth (school facilities manager), Mr. Ness (local expert in building maintenance), and Mr. Walden (town building commissioner).
